DETAILED ACTION

Election/Restrictions

Claim 2 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 4-7, directed to the non-elected species no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Batzli on 4/25/05.

Claim 3 has been amended as indicated in the previous Office Action, that is, including all of the limitation of the base claim and Claim 2. The application has been amended as follows:

--

3. (Currently Amended) ~~[[The]]~~ A bipolar transistor according to claim 2, comprising:

a semiconductor substrate;

a transistor operation region formed on the semiconductor substrate;

Art Unit: 2817

an insulating film formed so as to cover a surface of the semiconductor substrate;

a lead line led to a surface of the insulating film therethrough from the transistor operation region;

a pad for wire bonding connected to the lead line; and

a capacitance adjustment line connected to the pad,

wherein the semiconductor substrate is an N+/N type collector substrate, a collector electrode is formed on a reverse surface of the collector substrate, and the pad is formed on a surface of the collector substrate as an emitter pad and a base pad,

wherein by adjusting an area of the capacitance adjustment line connected to at least one of the base pad and the emitter pad, at least one capacitance value of a corresponding collector-base capacitor and collector-emitter capacitor is adjusted.

The claim status identifiers of Claims 4-7 have been improperly indicated as "(Previously Presented)" or "(Currently Amended)" and now is amended to read as -- (Withdrawn) --. Note: These claims are rejoined and allowed.

Statement of Reasons for Allowance

Claims 2-7 are allowed.

taken alone or in combination of other references, does not teach or fairly suggest a collector electrode is formed on a reverse surface of the collector substrate, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
